Kobe Adhesion Product (Shenzhen) Co., Ltd. Specializes in producing *Packing List Envelopes*. We have already shipped tons of our envelopes and gained the highest reputation as a dependable company from our biggest market, Japan.

Our performance in Japan covers the delivery to the major transportation companies, mail order companies, manufacturers and government organization. Our products have also already been shipped and put to practical use with great success in North America, Europe, Asia and Africa.

Packing List Envelope is the most important item in business for your customers see it before opening the packages. How do your clients feel if it is torn or the documents inside are not matched with the envelope?

Our product can put aside such concerns. The quality is noteworthy because of our sophisticated producing in Japan through the experience of past performance.

We operate an integrated system from glue resist dyeing, slitter to bag-making in Shenzhen, China, so that our reasonable market price is highly competitive in the field.

Our engineering innovation progresses every day and improves the manufacturing efficiency to 50% per year. The spirit of "Kaizen" in Japanese, which means "improvement", penetrates all of our manufacturing processes.

The assets of our factory are not only the machines but also the factory workers disciplined with the spiritual mind of "Kaizen".

Our techniques were innovated only in Japan and then lodged in China for producing. We have some technical improvements on the slitter to be able to produce special orders. The products manufactured via this procedure have already made a high reputation in the Japanese market.

Our factory workers are qualified. Our own president is 40-years old, and sets the example for the young generation for manufacturing the best products.

Your second order will follow when you are satisfied with the quality of our work, and confirm our confidence in our products.
